EXPERIENCE

Full-Stack Developer (Freelancer)

2024 – present

- Delivered end-to-end full-stack solutions for clients, focusing on building both front-end and back-end components for web applications.
- Collaborated with clients to understand their requirements and developed scalable, user-friendly websites.
- Integrated third-party APIs to enhance functionality, such as payment processing and real-time data handling.
- Independently managed projects, ensuring timely delivery and high client satisfaction, while adapting to fast-paced environments and changing needs.

FullStack Developer Intern, Hydrotribe Pvt Ltd.

May 2023 – July 2023

During my internship at Hydrotribe Pvt Ltd, I contributed to developing both front-end and back-end components for web applications, collaborating closely with cross-functional teams in a fast-paced startup setting to deliver robust, user-friendly solutions.

- Contributed to UI/UX discussions and utilized Figma and Vue.js to create impactful solutions.

- Supported server-side development and integrated APIs to enhance full-stack functionality.
- Demonstrated adaptability, quick learning, and commitment to delivering results within tight time frames

PROJECTS

Cafe Raaga - Restaurant Website (<https://www.caferaaga.com/>)

As a part of the CafeRaaga project, Implemented online ordering, menu browsing, and order status features to improve customer interaction and streamline cafe operations.

- Developed a responsive restaurant website with **Nuxt.js** and **Vue.js** for dynamic user experience and **Tailwind CSS** for a clean, mobile-first UI.
- Integrated **Firebase** for real-time order tracking and **Clover API** for POS integration, enabling seamless order processing and inventory management.

SpeedCopy - Online Printing Services (<https://www.speedcopy.in>)

As a part of the SpeedCopy project, I played a key role. I led front-end development and UI/UX design for an online printing services platform using **React.js** and **Tailwind CSS**, resulting in an intuitive and visually appealing user interface.

- Collaborated closely with the backend team to integrate frontend components seamlessly with the **Django** backend and optimize platform performance.
- Utilized Tailwind CSS to ensure a responsive and mobile-friendly design, enhancing accessibility across various devices.

Jaasritha corporate solutions - Audit & Tax Consultants (<https://manasakc055.github.io/jsc-website/>)

As a part of the Jaasritha corporate solutions project, I played a key role. I led front-end development and UI/UX design for an Audit & Tax Consultants services platform using **HTML**, **CSS**, **Vue.js**, and **Bootstrap**, resulting in an intuitive and visually appealing user interface.

- Leveraged Vue.js to seamlessly integrate frontend components, facilitating smooth updates, and employed Bootstrap to create a responsive, mobile-friendly design that enhances accessibility across a variety of devices.

Evodesign and Constructions – Construction Company Website

Developed a responsive and user-friendly website using **HTML**, **CSS**, and **Tailwind CSS**. Designed an intuitive interface to showcase the company's services and projects, ensuring seamless performance across all devices.
